## Upgrading the Pacific Highway

### **Oxley Highway to Kempsey**

#### Preferred route display

The NSW Roads and Traffic Authority (RTA) has identified a preferred route to upgrade the Pacific Highway to a dual carriageway standard from the Oxley Highway to Kempsey.

This route has been modified in response to community. The preferred route provides the best overall balance between functional, ecological, heritage, social and economic considerations.

Information is available in the August 2006 community update and the Oxley Highway to Kempsey Preferred Route Report.

Copies of the community update and report are available on the project website or by contacting the project information line (see details below).

**The preferred route is on public display until Friday 13 October 2006.**

For more information contact the
