

GHD Design Documentation

WATER | ENERGY & RESOURCES | ENVIRONMENT | PROPERTY & BUILDINGS | TRANSPORTATION

Developers, government and key stakeholders demand complex outcomes from the planners and designers of the built environment. No longer can projects be represented in simple terms, as performance is demanded at every stage of the development cycle.

Precise and accurate drafting is essential for the development cycle of any project. With drafting teams around the globe, you can rely on us to provide modern, economical designs for your project.

We recognise the importance of incorporating constructability, simplicity and technical excellence in your designs. Maintaining control and development of all computer aided design and drafting (CADD) activities is an integral part of our business in providing services to you.

Our global team provides:

- CAD drafting documentation
- Three-dimensional modelling
- Project visualisation
- Building Information Modelling (BIM)
- Walkthrough/flyover animation
- Mapping
- Cartography
- Survey
