GHD Oil and Gas - Risk and Safety
The GHD Risk & Safety group provides services covering the entire life cycle of a project starting from the concept design phase right through to providing effective solutions during the construction, commissioning and operational phases. GHD has a proven track record of delivering risk and safety services to major players and regulators in the energy and resources sector.

We have an in-depth understanding and appreciation for clients operating in highly regulated industries and have provided our clients with a wide range of risk management services.

**Services**
- Preparation of safety cases (i.e. for major hazard facilities)
- Dangerous goods assessments
- Hazard and Operability (HAZOP) studies
- Quantitative and GHD’s Semi-Quantitative Risk Assessments (QRA and GHD SQRA®)
- Fault Tree and Bowtie analysis
- Safety management system development
- Safety and compliance auditing
- Strategic and executive level risk advice
- Project risk management advice
- Environmental risk assessment
